

## **CITIZENS ADVISORY PANEL**

01/14/2021 Meeting Minutes

Panel was welcomed by City Administrator to the meeting.

Item One: Panel discussed issue of on-street parking in our subdivisions. Each HOA has covenants that there is to be no on-street parking, yet these rules are often ignored. Discussion on how or whether to have city ordinance regarding on-street parking in subdivision streets. City receives complaints from School Buss drivers and Fire and EMS Services as well as residents about such parking.

Item Two: Discussed updating nuisance ordinances, including Camper/RV Parking, burning grass and leaves, open burning, abandoned and junk vehicles, weeds, grass and deleterious growth, accumulation of junk, discharging firearms in city limits and noise regulations.

All agreed we need to update our nuisance ordinances and clarify parts of our existing ordinances to ensure all citizens and business owners understand each clearly.

City Administrator to propose updates for review at next meeting.
